President forcillentata

To avoid the imputation of appearing troublesome, I waited a considerable time after the half-pay was advertised, that a very just application, the I believe unprecedented, shall not displease the Admiralty. Government is in my debt to a much greater amount than twelve months; and altho I have not enjoyed any emolument, perquisite, or profit, from any business or employment whatever, the only reason advanced for detaining my property, is the want of being qualified every six months, by swearing to the contents of a certificate as the result of my own pleasure and inclination, when an order of council commands me, and absolutely prohibits the payment until I do.

A voluntary act is an avowed freedom of choice, and under that denomination cannot, to swear justly, admit the influence of a compulsory order; but I am not allowed any choice, swear I must, and swear the oath I take is not enforced by order, compulsion, or necessary, but a voluntary act of any own, received with equal free-

dom

dom as the air I breathe; and as an indemnification for imposing an improper oath, I am obliged by the same rule to leave my signature duly attested by a magistrate as a record, certainly not of superior wisdom. To swear, then, agreeably to the prescribed form laid down by the privy council, is obvious to the plainest capacity a surreptitious oath, concealing its deformity under that mild appellation: for I, hope no man is so far lost to all sense of virtue, as to prefer taking an idle oath of this kind, or any other description, when permitted an option by the very word voluntary, to decline it.

Instructed from my infancy to guard against falsehood, as the most possonous evil that can possibly invade the human mind, and to court truth as the most beautiful of all moral virtues, I view an oath as the most awful and solemn appeal which a man can possibly make: the present judges say it should be administered with caution, and never repeated except when pressing necessity requires! for this reason, an oath before them is a public bond of true evidence; tear away the solemnity by habitual practice, the sacred barrier salls to the ground, and every man enters wild and lawless on the common of perjury.

It was the language of Mr. Pitt, in the House of Commons, (I ask pardon for the introduction of his name) when a clause was offered for a certain bill late in the last session, recommending an annual oath, or thereabouts, as necessary for the better payment of that part of the revenue it went to describe, his answer was, such a multiplication of oaths tended to destroy every public principle, promote fraud and perjury, more than any immediate benefit to the Exchequer could possibly compensate to Society. I lament, sentiments equally discerning and honourable do not adorn the heart of every man.

Having served under three commanders, not less amiable in private life than eminently conspicuous on the list of professional merit, their parental precepts, their example of rectitude and manners, remain still as an admonishing lesson of advice never to be departed from. To drink from a foul stream in preference to a clear fountain, for no other reason than a multitude being constantly led by official

official perfuation to do to, without once deigning to examine the contaminated fource it flowed from, or, as a gentleman in the commission of the peace observed to me with evident marks of displeafure, " what business have you to object against it, when others do it?" would be treating every faculty with ingratitude, and manifold an open indifference for the good of knowledge. It won to mointee

I can pass by the oath; it is frequently done; the terms are lew. fafe, and practicably eafy; for it is inconfishent with common fenfe to take a voluntary oath as an act of necessity; it is a bad doctrine that goes to obliterate the terror of iniquity by habitual repetition and actually libels the propriety of justice; but to be forced in any manner, and fwear to the contrary; or if the fraud was discovered. I believe it would torture the invention of the most learned difquifitor to frame a profecution for counterfeiting a forced, unjust, nominal, voluntary oath. To me, the evafion would be difhonourable, and amount to a crime of equal magnitude as embracing the evil I complain of poor state and such sit of the youth it such as the evil I complain of poor state and the state of the

Profane swearing or any other description of idle oaths, as a passport to receive those wages the law, reason, and equity, does not allow the detention of, under any pretence, in the most uncivilized countries, is forcing a man privately by the most cruel of all tortures, to the commission of iniquity, without being able to advance even a plausible reason in its defence : for I observe, it is not for the prevention of fraud to the revenue, or to prevent that kind of emolument in future, which it goes back to discover, neither is it to prohibit an officer from wandering abroad, when liable to be called for at home, but for a purpose which may be guessed at delicacy will not allow me to mention.

At any rate, as men of more liberal and independent characters now fill the departments of State, than at the period which gave birth to this curious order, the intention it was introduced for is now done away, confequently a continuance of it is entirely unneceffary: notwithstanding the remote period of its formation, those who advised it, were in some degree sensible that a public oath could not be imposed on any part of the community beyond the walls of D. P. Taffice.

the council chamber, unless specially introduced and authorised by act of parliament, or fo great a people would never attempt to conceal the imbecillity of a measure, and fritter away their own power, by retiring behind the specious form of this deponent voluntarily makes oath,' when an absolute order was in force to carry it into execution, or stop the payment of wages until it was obeyed.

If I am to be precluded from all use of my property, because I do not implicitly swear to error and contradiction, under the vain idea of compulsion being an ample shield against the disgrace of fwearing improperly, and that the enormity would revert on those who imposed it, such language is beneath any man that had understanding to perceive, the not fortitude to oppose; clothed with the benign hand of providence with health and ftrength, necessity shall never compel me to look for it by any way dishonourable to myfelf, or repugnant to the nicest laws of equity.

If this is true, virtue animates the hero, and emulation is meritorious in the youth, if vice is ugly, and falsehood a deformity: as' a fenator, and a man of fense, the good of the Navy, the benefit of your country, call on you to attempt the extirpation of a custom dishonourable to God, and reproachable to man.

I am, Sir, with great respect,

Your very humble fervant,
